How does immunotherapy work?

A sample of white blood cells is collected from a sick child. In the laboratory, a child's own T cells are re-educated to target cancer cells. The T cells are reintroduced into the child's body, where they find and destroy cancer cells without harming healthy cells.

Two participation holes – Spin the wheel and win a prize. Everyone wins. BIG Dice Yahtzee is on another hole. Win golf tees, golf balls, restaurant gift cards, and more. This is simply for some added fun and a thank you for your participation and support.

On 5 holes, prior to the team's first tee shot, one player selects a playing card from the deck. This occurs on five holes: N4, N8, W1, W4 & W6

RULES: Each team draws one card at the poker draw holes. You can exchange your card for one new draw for \$10.00. This rule applies to all 5 poker holes. Each of the five decks have a colored mark on them; to win, each hand must have one card of each of the five different colored cards. At the completion of the scramble, each team presents their hand to the poker master near the silent auction table and the poker master will select the winner. In the case of a tie, the winner is determined by a high card draw.

Avalon golf links donated a round of golf at Avalon, cart, and a sleeve of golf balls to the winning foursome. Angel of the Winds donated a one night's stay at Angel of the Winds Casino and a \$50 food voucher for each member of the foursome! This is a \$1,200 value.
